Full-stack developer. Experience using HTML, CSS, JavaScript, JQuery, Express, MySQL, & MongoDB.

Longview

Summary

I have a variety of experience in different fields that I believe make me an ideal candidate for employment. Majoring in psychology provided me with unique skills that helped me lead and build teams. I'm very ambitious, self-driven, and compassionate. I believe a true leader inspires a team to achieve their best through respect and encouragement. I look forward to incorporating my coding skills with everything I've learned thus far on my employment journey!
